

# Distributed Teams

**FF through 20 years  
of out- & in-sourcing  
in software development**

Dino Frese  
Accenture Interactive  
June 2020

Let's try something new for this talk / meeting

<https://app.mural.co/t/1Interactiveasgxpp9495/m/1Interactiveasgxpp9495/1592293745361/72bb289b24b02f80984e8fd0d08e95d22a3f4c0d>

/// What usually happens when FF:

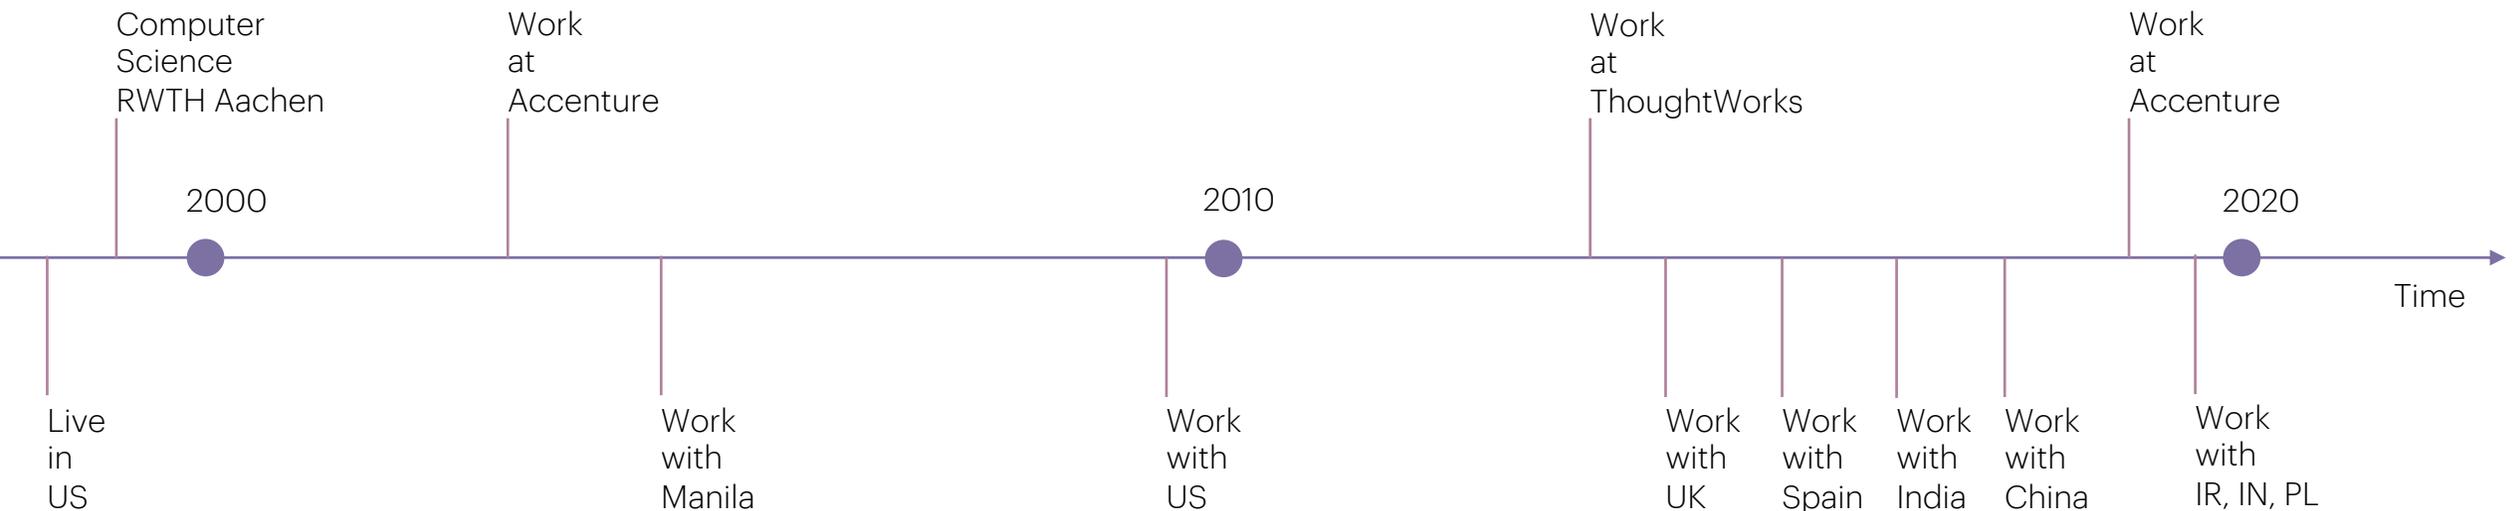

My "Bubbles":

I am a husband and a father. I also love handball, music & cars.  
I work at Accenture. I happily share stories around all of that.

Personal impressions – Today:

Personal impressions – A while ago:

!!! So much has happened in the last 20 years:

- ▲ Essay: Law of accelerating returns (Ray Kurzweil)
- ▲ Agile Manifesto signed
  - ▲ Book: Agile software development with SCRUM (Ken Schwaber, Mike Beedle)
    - ▲ Gartner: How to Approach Customer Experience Management (Ed Thompson, Esteban Kolsky)
      - ▲ Book: Blue Ocean Strategy (Chan Kim, Renée Mauborgne)
      - ▲ Book: Continuous Delivery (Jez Humble, David Farley)
    - ▲ Book: Lean Startup (Eric Ries)
- ▲ Concept: 6 Ds of tech disruption (Peter Diamandis)

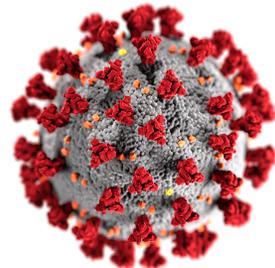

I believe, distributed software development changed during the last 20 years:

- There are more distributed development teams
- The motivation for distributing teams changed from “cost-savings” towards “ability to scale”

I believe, distributed software development changed during the last 20 years:

- There are more distributed development teams
- The motivation for distributing teams changed from “cost-savings” towards “ability to scale”

... and it was boosted during the last months

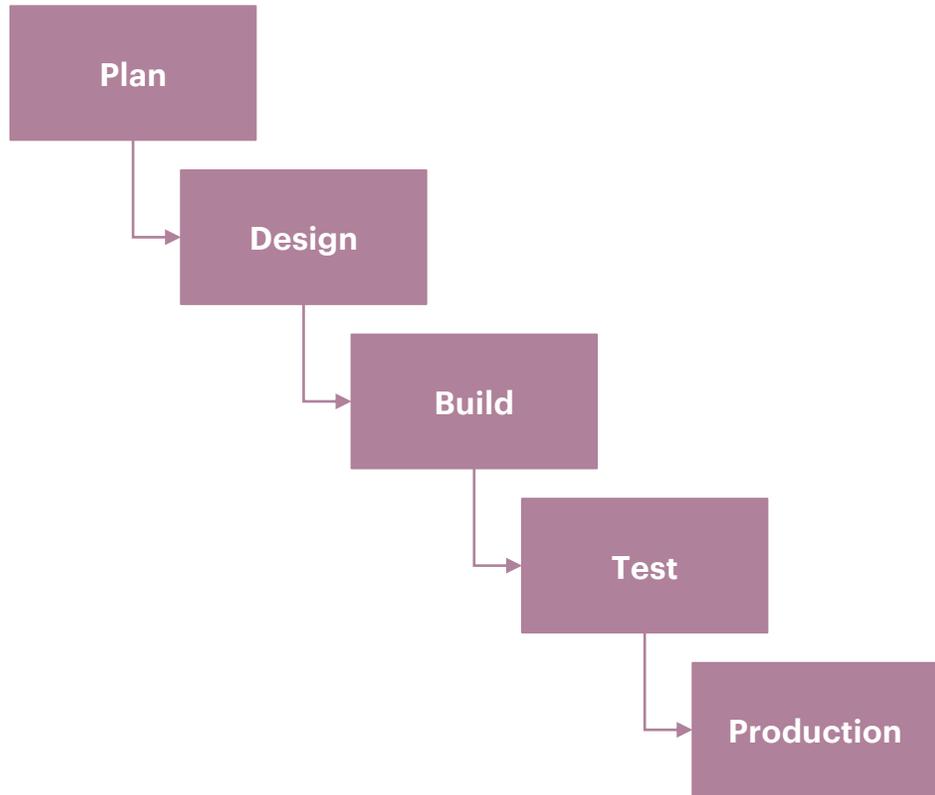

**Work in**

**2000s**

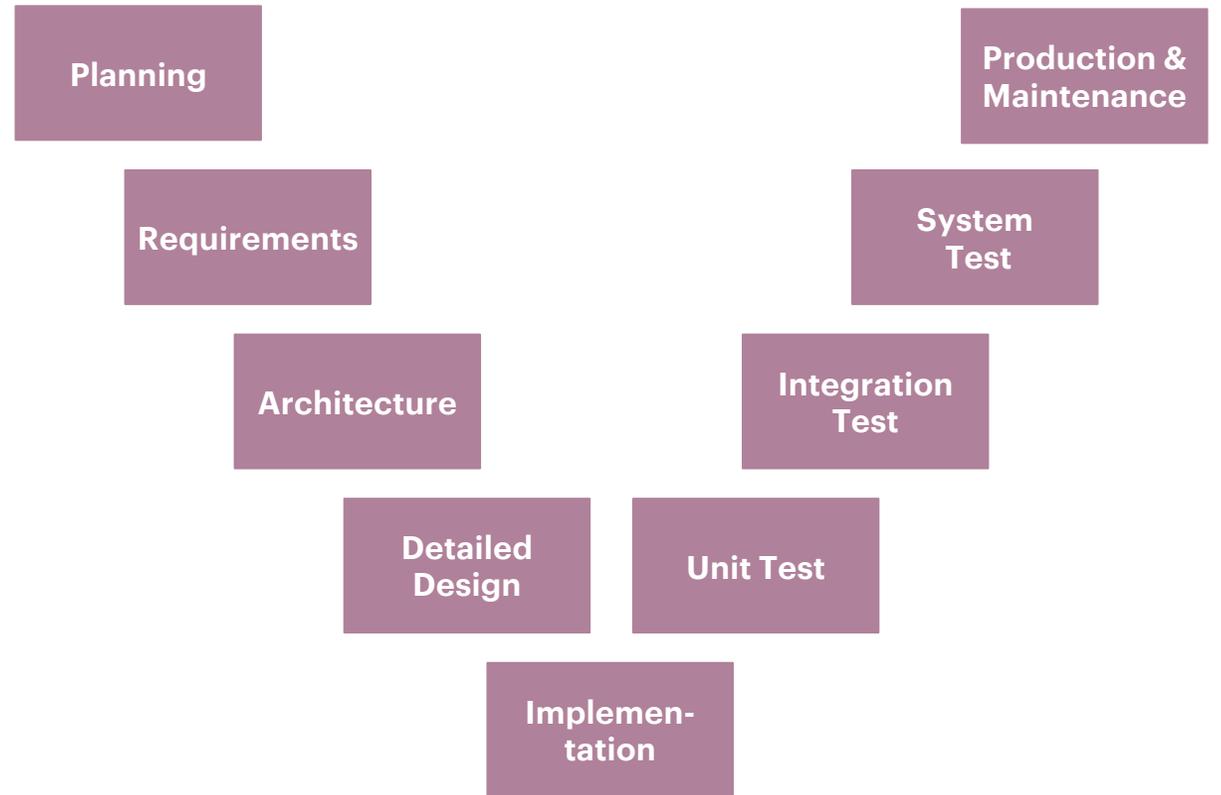

/// How “we” used to work:

### Waterfall:

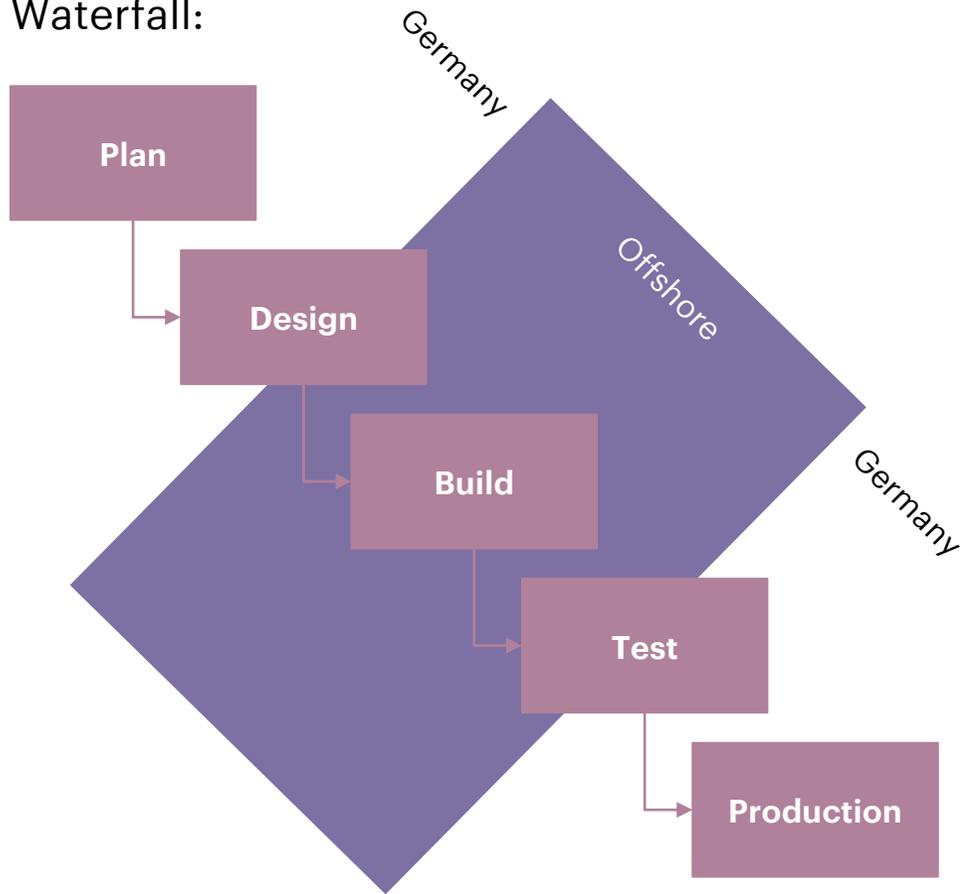

### V-Model:

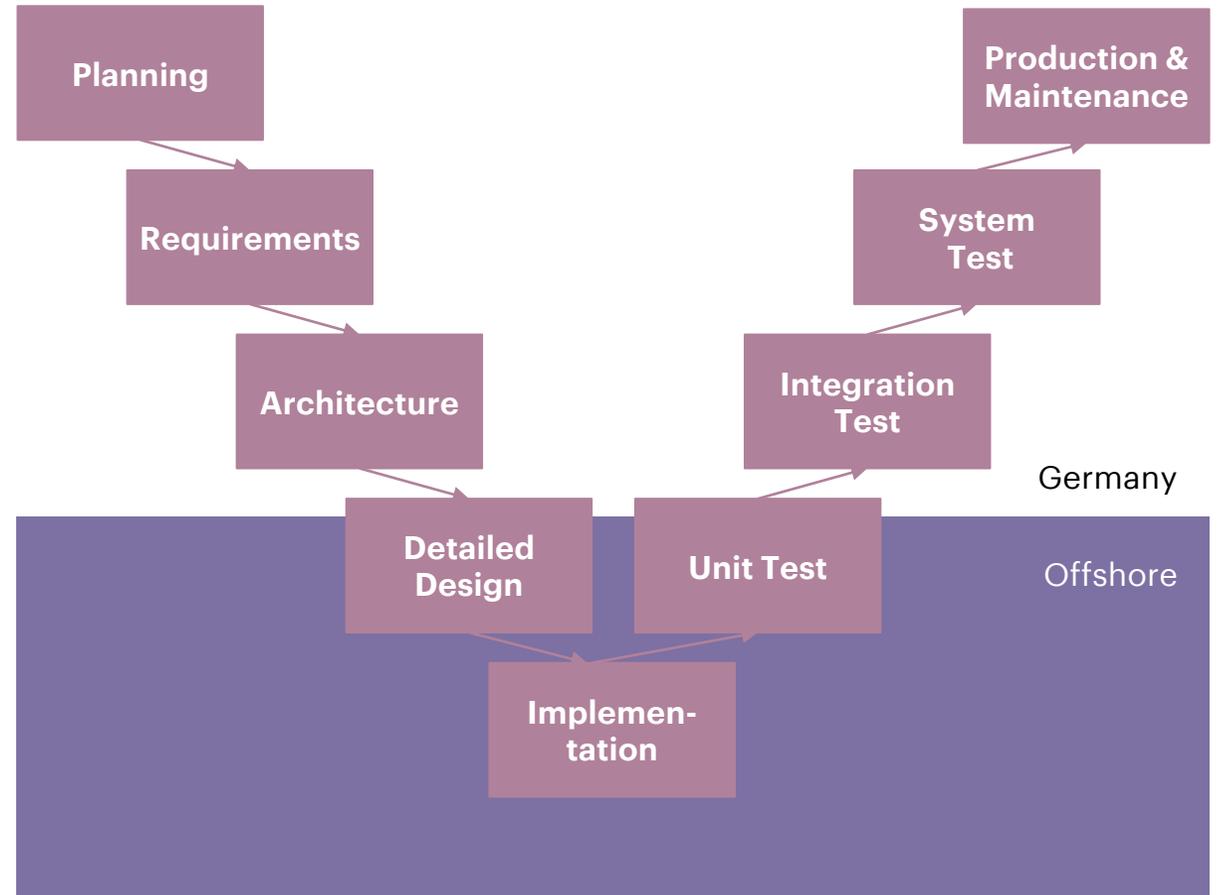

How “we” used to distribute & source:

### Waterfall:

### V-Model:

/// Barriers we hit:

≡ Bridging the gaps in 2006:

/// Believes driving this approach:

- **Factory**

- **Development of IT systems can be standardized**

- **Results are foreseeable and work is repeatable**

- **“Werkbank”**

- **Distributing work across locations can be done “by process” step**

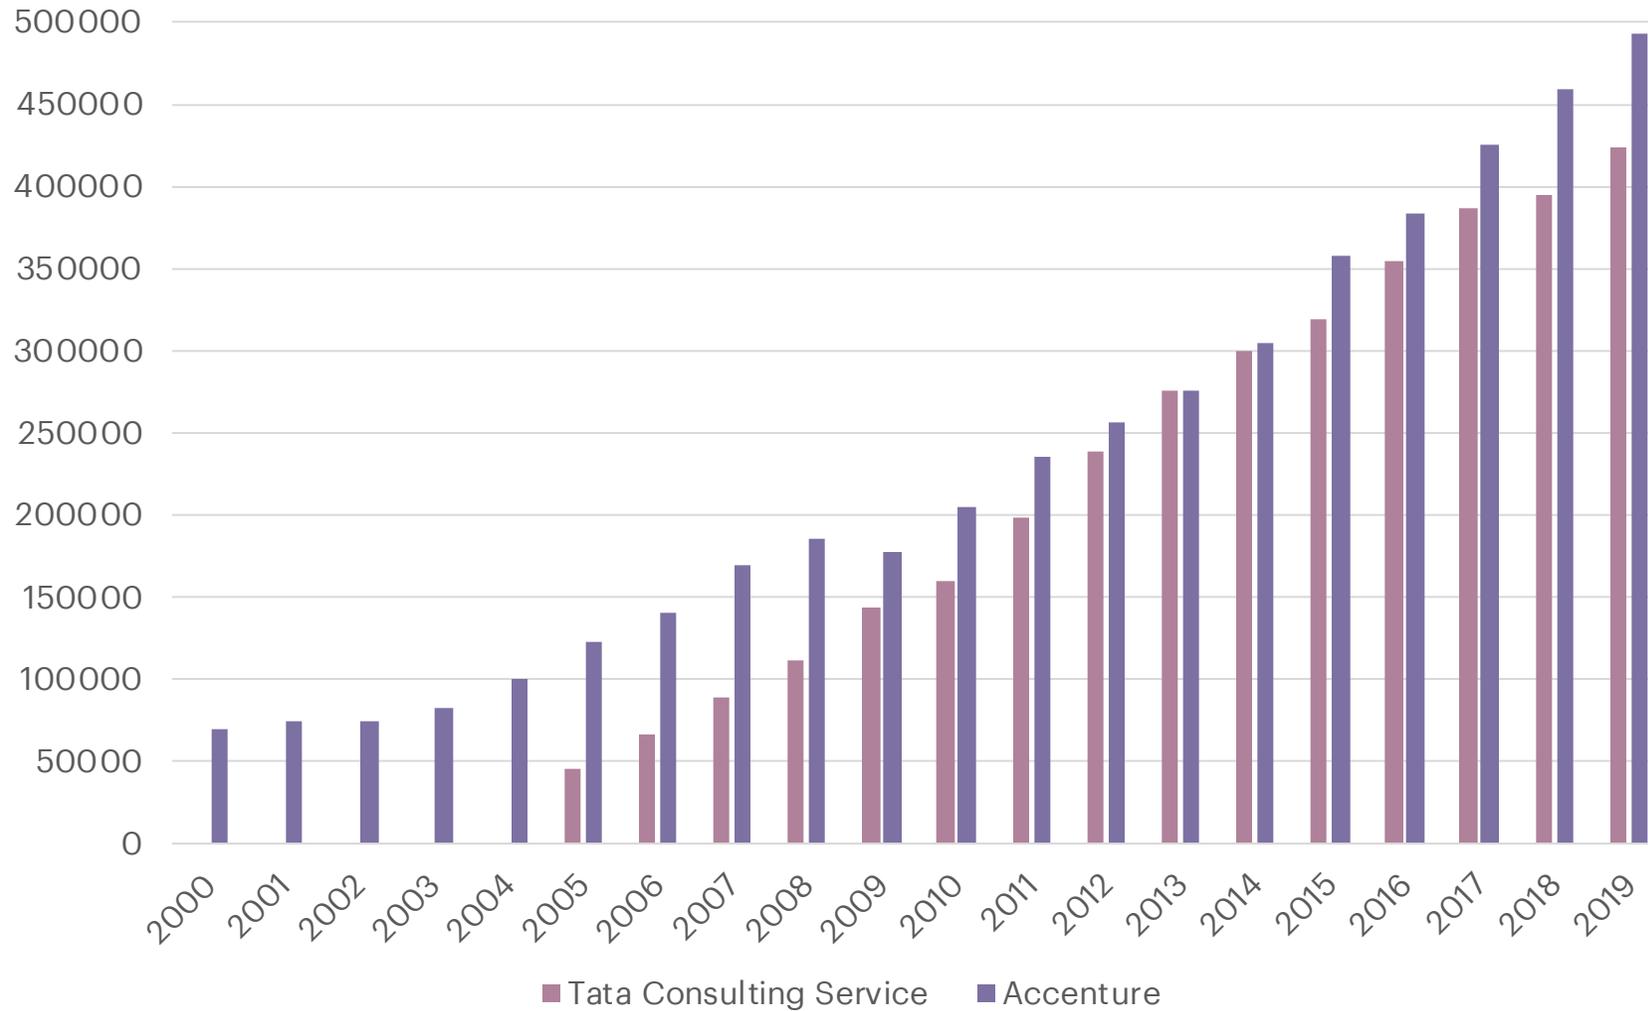

# Data

# & Proof

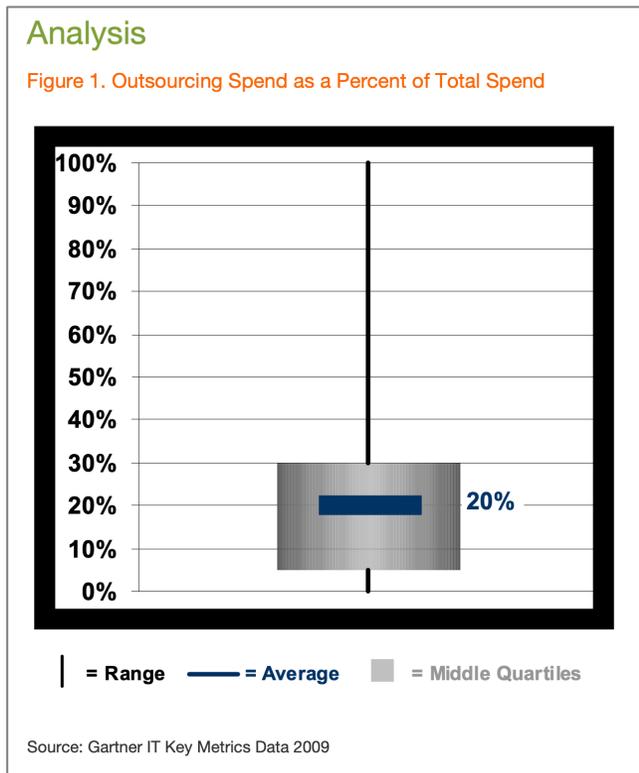

/// These methods and believes were a driver for businesses and growth:

## Employees per year

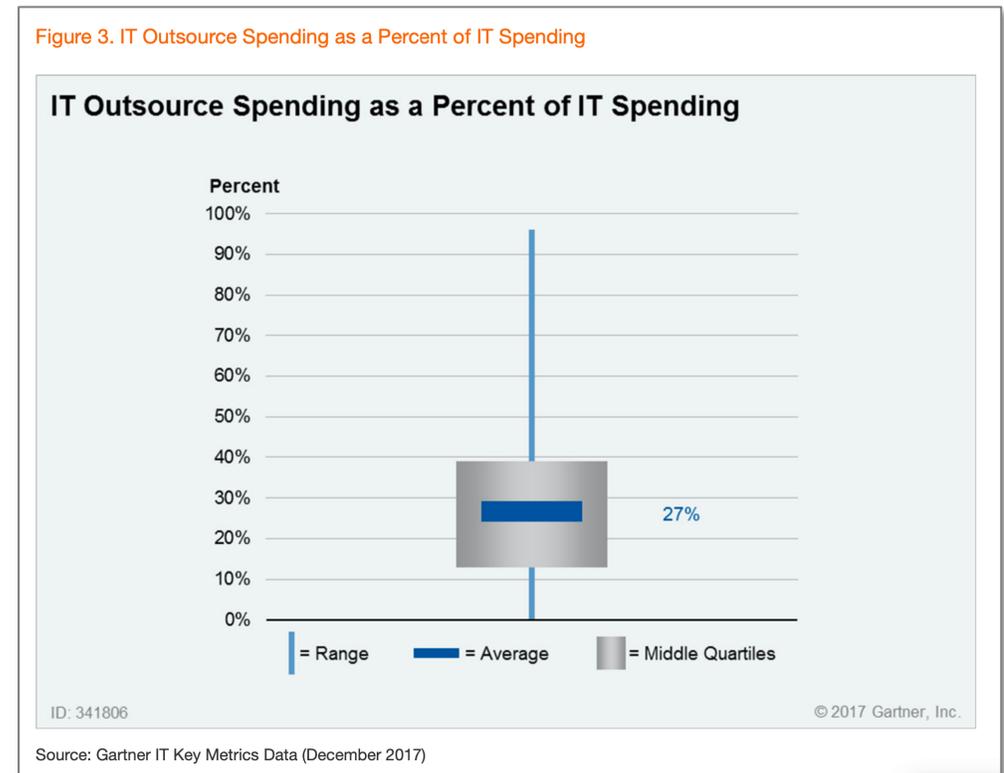

## Gartner: IT Outsourcing Spend as Percent of Total Spend

2009: Average of 20%

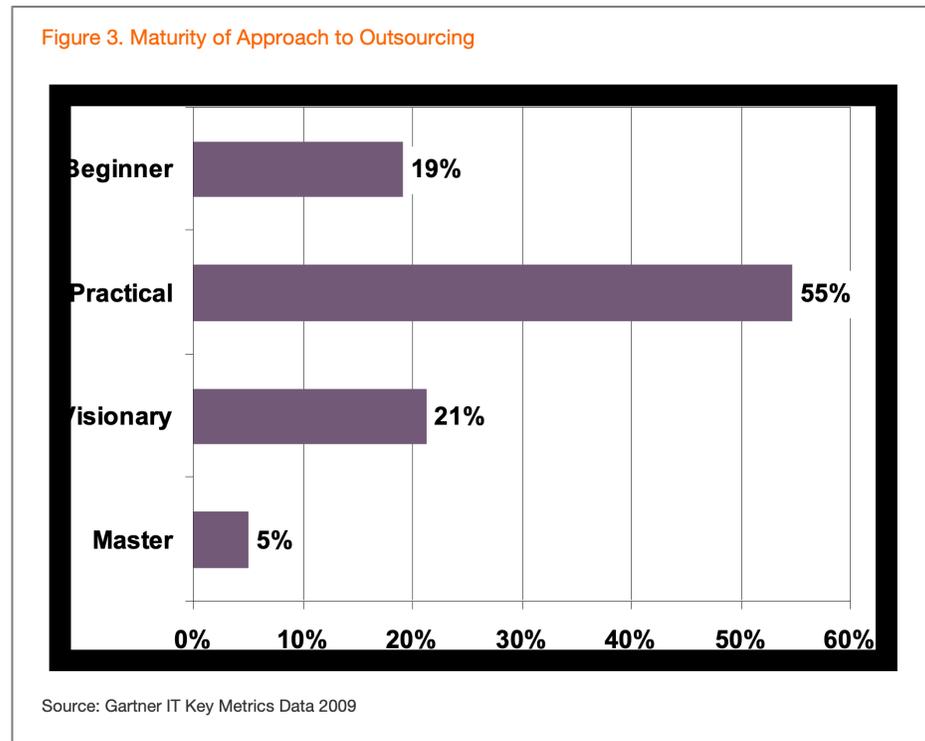

2017: Average of 27%

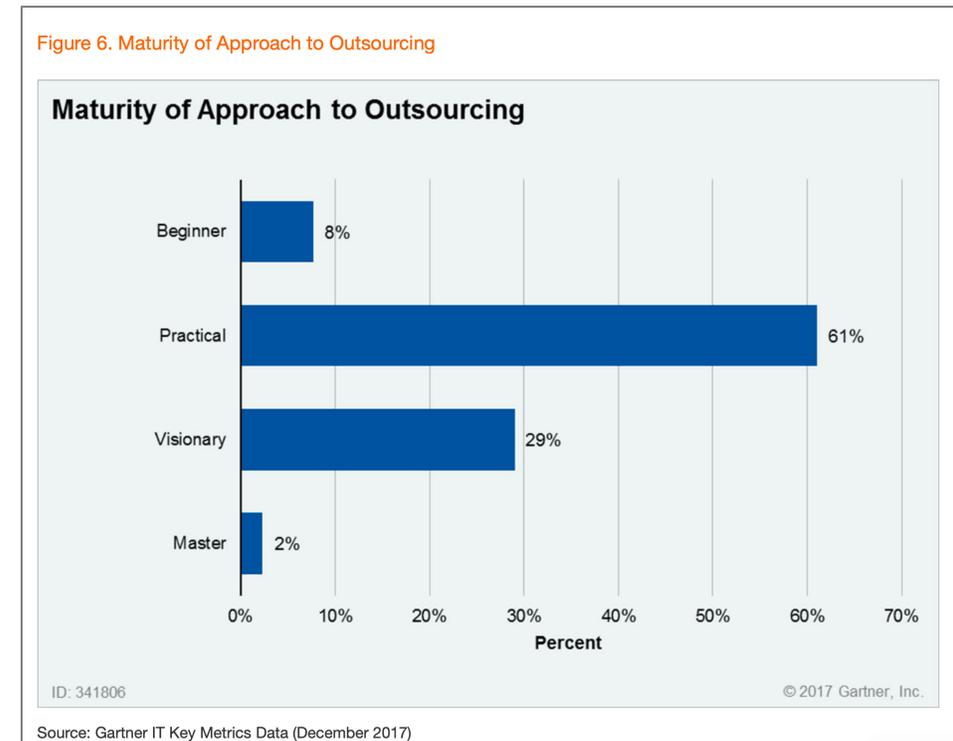

Outsourcing → Distribution, Outsourcing got more mature:

## Gartner: Maturity of Approach to Outsourcing

2009: Beginner = 19%

2017: Beginner 8%

Shift in mindset & culture:

**Data**

**& Proof**

“Im Rahmen der Partnerschaft wird Volkswagen ein neues **Entwicklungszentrum für die Automotive Cloud in Nordamerika gründen**”, Press Release September 2018

“**Software** will account for 90 percent of future innovations in the car,” Herbert Diess, March 2019

VW Group Strategy 2025: “**Software-Enabled Car Company**: Our brands have long set standards in technology, design and quality with their vehicles. They inspire customers and achieve economic success. That alone will not be enough in the future. Digitalization is fundamentally changing the car, the automobile is becoming a software product.”

1300 team members – all remote
